GENERAL INFORMATION

The Conference takes place on 20th - 24th May 2019 in Międzyzdroje, POLAND. The Conference is addressed to researchers, designers, engineers, consultants, administrators and students. The aim of the Conference is to create a forum for presentation of research results and technical reports of failures as well as techniques for strengthening, repair and rehabilitation of structures. The Conference program will include plenary and poster sessions with papers selected by the Conference Organizing and Scientific Committee. This biannual event is a major meeting place for structural engineers, with invited international delegates.

THE MAIN TOPICS

- analysis of causes of the structural failures,
- post-accident repair and reconstruction methods,
- presentation of fields test results and analytical evaluations of structures and their safety,
- case studies of structural failures and innovative methods of strengthening,
- diagnostics and failures prevention.
